

Re Dr Clive Hathaway Travis

Brilliant. Squashed a lot of false assumptions. Highlighted problem of stereotyping. Brilliant – so open and honest.

His honesty about his experiences were great, he delivered a really good presentation. Thoroughly enjoyed it.

Very good website. Very informative and exceptional subject matter of presentation. Good first hand information about schizophrenia and treatment and side effects.

Good expert by experience. Knowledge of services. Very good presentation from a service user's perspective. Gave useful insight into the insight of Mental Health survivor.

The frustrations he had to go through for the treatment for his mental health problems. The side effect of medication. Refreshing look at the service user's viewpoint informs how we practise.

Very informative. Very organised. Very interesting. Changed my understanding of schizophrenia. Excellent, honest and open experience. Sharing of his time involved with MH services.

Really liked the whole presentation. Very motivating and eye-opening life story. Engrossed ... interesting ... informative. Approachable in being able to contact him.

Amazing man, was close to tears hearing his story! Opened my eyes to how collaborative working can affect a service user and learnt that it is possible to recover from a mental illness.

Courage to tell "his own story" and being a great role model to emphasise the need for "hope" and to not lose sight of this. Inspirational! Emotive. Lots to think about.

Amazing. Insightful and extremely informative. Quietest class has been all year.

Very open and honest account of experience – memorable. Allowed us to reflect on own approach to a variation of MH practice issues and environments.

His "non-blaming", but questioning attitude towards the agencies and professionals involved in his case.

Positive information given on such a devastating illness – recovery is possible! Extremely interesting and awareness provoking insight in MH from a service user's perspective. Good delivery and useful facts provided during presentation.

Clive should do more lectures – excellent!! Not enough time dedicated to this approach.
